## Video Instructions KWPN-NA foal/ yearling futurity 2021

1. Stand up the mare and foal in an arena or any well-lit area with a side view followed by a front and back view - close enough to evaluate conformation and correctness of legs. Have the camera approximate the judge's position. Choose a location where the light is best and not too backlit for camera to make a clear bright image.
2. The foal /yearling should be haltered and standing quietly. Be sure to get unobstructed video of the foal's conformation and correctness.
3. Show the foal/yearling's conformation from each side – also from the front & back so we can see the conformation.
4. Then show the foal /yearling walk away from the camera and then back towards the camera. Do the same for the trot. If the dam is with the foal, try to keep her in front of the camera so the foal can be viewed clearly.
5. The foal/yearling may then be set free (remove halter if possible). For the quality of gaits, we recommend walking the mare by hand, and the foal loose on the inside nearer the camera. Then, trotting the mare in hand the same way, so foal can trot and canter and be evaluated in trot and canter at liberty. We need to see the quality of gaits clearly.
6. Please upload the video to YouTube **with no titles**. All that information will be on the entry/nomination form giving mare and foal names, owner name, and date of birth of foal and date of video.
