Our Presenters

Henk Dirksen

Henk Dirksen was born in 1976 at a farm near Zwolle. His father, grandfather and great grandfather were all horse breeders. All of them bred approved Stallions and were riding horses on the cattle farm they owned. Henk also rode young horses up to 1.30 m classes. Together with his father, Henk bred the grand prix horses Olona (v. Indorado) ridden by Cassio Rivetti, Play On (v. jus de Pomme) ridden by Beezy Madden, Salerno (v. Emilion) and Rina (v. Indorado) ridden by Dennis van Tilburg. After finishing the high agriculture school Henk worked a few years at the VDL stud, training young horses and inseminating mares.

In 2002, Henk started judging horses for the KWPN studbook. During that time, his “real” job was for a horse insurance company. In 2010, Henk was asked to work for the KWPN as the inspector for the mare selection and began judging mare shows and mare tests (IBOP and EPTM). In 2019, Henk was asked to become the contact with the KWPN-NA and travelled to North America to judge horses in the KWPN-NA keurings. He truly enjoyed his experience traveling to the keuring sites in NA that summer. In the winter of 2020, Henk served as an inspector at the KWPN Stallion show in Den Bosch on the stallion selection committee for young jumping stallions.

Henk lives with his wife, Martine, and their two daughters in Friesland in the north of Holland. They have a small farm for horses with four jumper broodmares. His wife is riding the young horses and his daughter is riding pony's. Together with his wife, they bred the approved stallion and 1.50 m class horse Brugal VDL ridden by Jonathan McCrea and the grand prix horse Eleganto. They also bred the approved stallion and the winner of the stallion test (2018) Kallmar VDL (v. Carrera) and the approved stallion Light Cohinoor (v. Cohinoor).

Henk hopes his daughters continue the family legacy and will ride in the future with their own bred jumping horses in the sport.

Ryan Ferris, DVM, MS, Diplomate,
American College of Theriogenologists
Owner: Summit Equine, Inc. Newberg,
Oregon.

Dr. Ferris graduated from veterinary school at Washington State University in 2007. Ryan completed an internship in equine surgery, medicine and reproduction at the Equine Medical Center of Ocala in 2008. Followed by a residency in Equine Reproduction at Colorado State University. He received a MS in Clinical Science

from Colorado State University, passed the board examinations for the College of Theriogenologists and was an assistant professor at Colorado State University from 2010-2017. In 2017 Dr. Ferris and his family moved to Newberg, Oregon and established Summit Equine, Inc. Summit Equine is a referral equine reproduction practice for mares and stallions. Offering services in breeding management (fresh, cooled or frozen), embryo transfer, problem mares, oocyte aspiration, stallion collections for fresh, cooled or frozen semen, international shipment of semen, stallion evaluations. Dr. Ferris is a invited speaker at conferences regionally, nationally and internationally.

Josh Albrecht

Josh Albrecht is a very passionate 20yo dressage rider, trainer and breeder from California. He offers training, sales and a young horses program from his family ranch. Josh has also been building up a mostly Dutch breeding program the past couple of years and bought several mares from retiring breeder Deborah P. Harrison.

Also, he qualified for the Nation-

als in Kentucky this past fall, with three horses. Liz van Woerden paid him a visit and talked to him about his future plans and vision for his newly started horse business.

Willy Arts

Willy Arts was born in Holland. He grew up with a family in horses and learned all the aspects of animals at home. He was fortunate enough to grow up in a small area that was very horse oriented. After graduating high school he went to a Dutch Equestrian School (Deurne) which was a five year program. This school taught him many things from management, giving lessons, horse shoeing, breeding, riding, etc. During this time Willy was very

involved in preparing Stallions for the stallion approvals. He also rode and competed the stallions in the stallion competition. The KWPN stallion Uniform was one that Willy prepared as a 2 ½ year old and took him to the stallion show for the stable that he worked for, and after he was approved he went on to the performance test and was approved in 1984.

In 1984 He made the transition to California and began working with the Degroot family. He rode Wanroij and Volckmar who were the Flagship stallions at DG Bar. He has also prepared several stallions in the United States for approvals since then as well. Willy has been successful in competing several FEI Horses, as well as qualifying many horses for the FEI Young Horse Championships. In 2008 Willy competed on his home bred and trained mare Valeska DG (Krack C x Farrington), at the Markel/USEF West Coast Selection Trials, Valeska DG recieved a score of 8.3 qualifying her for the World Championship for Young Dressage Horses in Verden Germany. Willy has also been very involved with many different programs here in the United States, such as Young Riders, Junior Young Riders, FEI Young Horse programs and also USDF Breed shows. He is currently one of the coaches for the USDF young horse prospect faculty and a member of the support network for the USEF FEI Young Horse Program. Willy also has served as a KWPN-NA Board member for over 10 years and was Chair for many years.

Kimberlee Farms

KWPN-NA GOLD LEVEL BREEDER

2014 KWPN-NA BREEDER OF THE YEAR

Mike and Kim von Disterlo have seen their share of medals in the competition Hunter/

Jumper ring. The idea of building a top notch equestrian training and breeding facility has been Kim's life long dream. Located on a private road in beautiful Somis, California. Kimberlee farms has over 35 years' experience dedicated to producing talented and tractable performance horses.

Kimberlee Farms breeding philosophy has been based on quality, not quantity. Kim has produced many award winning foals and has sold horses that have gone on to winning careers with their new owners.

Kim has recently changed and updated her business plan to emphasize training and showing top talented jumpers. This has included a partnership with Ben Stout and Emma Irwin to develop and compete in the young jumpers at major events.

Bill Duffy and Aaron Fisher

Bill Duffy of Grand Finale Farm and Aaron Fisher of Rocky Ridge Stables are passionate Harness horse breeders and owners. They both own approved stallions: Bill owns Atleet and Macho and Aaron owns Globe-trotter. The men believe in the traditional Dutch way of training and showing Harness horses. In this virtual

interview they share their vision on this and also show us how to prepare and drive their stallions.

Our Interviewer/Producer!

Liz van Woerden

Liz van Woerden manages our promotion since 2020. She also writes and translates articles for us, keeps the website up to date, is in several of our committees and helps organize webinars and our auctions. We hired Liz as a freelancer and since this year, we sent her out to do barn interviews and have her do virtual interviews.

Liz is a writer, photographer and communication advisor that is specialized in equine marketing and PR. We plan to keep hiring her when she moves back to the Netherlands in July 2022. We actually think it will be an advantage for our organization and members to have someone working for us that is located in the Netherlands!

2021 Virtual Foal/Yearling Futurity

The Virtual Stallion Offspring Futurity was intended as a fun and educational virtual event for KWPN-NA members since COVID prevented our in-person Keurings. Open to Foal Book and Reg A KWPN-NA foals and yearlings bred, owned and residing in NA. Offspring sired by stallions that participated in the SSA the year of breeding will not pay and entry fee to enter. All other foals or yearlings who's sires did not participate in the SSA, paid a \$25 nomination/entry fee. Videos per a specific format were accepted until Sept 12. Approximately \$7,000 from the SSA proceeds and plus the additional non-SSA sired entries was divided between the to three winners in each category. We had a grand total of 113 entries! Fun was had by all!
