

# IBOP GELDERS HORSES for Keuring Booklet 2024

## **IBOP tests Gelders horses: one can do a riding or driving IBOP**

There is an under saddle IBOP and a driving IBOP for Gelders horses. Original Dutch IBOP tests: <https://www.kwpm.nl/Files/Files/Overige-PDF-bestanden/Factsheet-voorwaarden-IBOP-Gelders-paard-2024.pdf>

### **Riding IBOP test Gelders: Dressage and Jumping test**

1. Both tests need to be completed to pass the IBOP
2. Points given for the following aspects:  
**Dressage:** walk, trot, canter, posture, suitability as a dressage horse  
**Jumping:** technique, carefulness, attitude, rideability, suitability as a jumper
3. All the above-mentioned aspects count 1 time and the total needs to be 75 to pass the IBOP
4. There is no free jumping anymore in the Gelders IBOP

### **Driving IBOP test Gelders: Dressage driving test and skill test with cones**

1. Both tests need to be completed to pass the IBOP
2. The skill test with cones has 7 numbered passages that must be passed in order
3. The skill test must be done TWICE in a row
4. The skill test can be driven in canter or trot, and the driver can use varying speeds in the same test
5. The judges can ask the driver to do certain passages again

## Gelders IBOP Riding test:

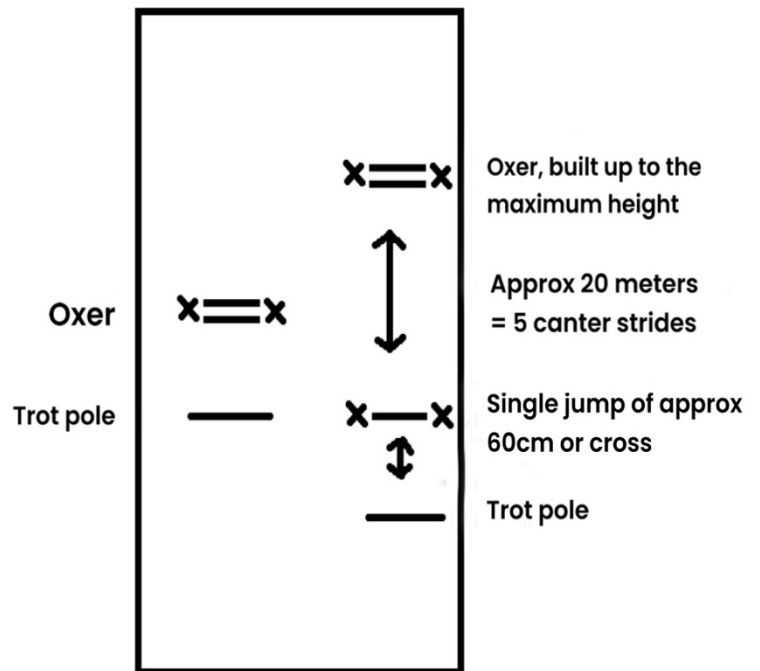

### **1. Dressage**

- Start at A in working trot to the left reign (go around multiple times)
- On the long side between H and K lengthen the strides
- Change reigns over the diagonal from H to F and transition to walk
- From K to H lengthen the reigns and let the horse stretch the neck
- On the next short side at C, shorten the reigns again and transition to working trot
- At E make a large circle and transition to canter, after two rounds follow the track
- On the short side, transition back to trot
- Change reigns from K to M
- At B make a large circle and transition to canter, go around twice, in the second circle show several extended canter strides after which you transition back to normal canter and follow the track
- On the following short side, transition back to trot
- At C, make a serpentine with three loops
- At C, make a large circle while letting the horse stretch its neck
- From there, transition into free walk, then follow the track

\*End of test \*

## 2. Jumping

During the jumping IBOP, the jumping under saddle needs to be judged according to the attached model. For three- and four-year-old horses the height of the jumps will be 80cm. By request of the judges or riders it can be heightened up to 115cm. For five years and older horses the minimum is 90cm, maximum is 125cm. The riders start the test by warming up over single jumps, after which they eventually jump the course.

### Driving/ dressage test:

A	Enter in working trot on the right hand
C	Halt and salute
Between C and M	Working trot
A-X-A	Large circle while letting the horse stretch its neck. Shorten the reins before A
